

Stay connected to your important meetings, wherever you are.

Redefine what you can do with an iPhone. Reach across physical barriers to collaborate in real time—without a computer. Attend and participate in Cisco WebEx™ meetings on your iPhone. You don't need a WebEx account to attend. WebEx for iPhone makes it easy to:

- Join WebEx® meetings from an email invitation or iPhone calendar entry. You can also enter the meeting number into the WebEx for iPhone app to connect to your meeting immediately.
- View presentations, applications, and even a full desktop—with live annotations—shared from another computer.
- See a list of attendees and participate in the meeting in real time, just as you would from your computer and phone.
- Make the most of the iPhone support of 3G networks and available Wi-Fi connection and collaborate in a fast, secure environment.
- Zoom and rotate the image to ensure that you get the best seat in the house wherever you are.
- Shake the iPhone to reload the meeting list. (You'll need a WebEx account to see the meeting list within the app.)
- Stay connected to your meeting, even if you lose your cellular connection. Let the WebEx audio system call you back and reconnect you—automatically.
- See who's in your meeting and chat privately with individuals or with the whole group.
- Transfer your WebEx meeting from your iPhone to your computer seamlessly, with a flick of the wrist, using the Meeting Handoff feature.

Do more on your iPhone. Add a Cisco WebEx Meeting Center host account.

View and participate in WebEx meetings with the free WebEx Meeting iPhone application. Get a WebEx Meeting Center host account, and open a wide world of global collaboration. Add the ability to schedule meetings and invite participants to your meeting right from your iPhone. Take advantage of full WebEx Meeting Center capabilities using your host account from a computer.

Count on proven Cisco WebEx security and reliability.

All WebEx services are delivered on demand over the global Cisco WebEx Collaboration Cloud. No new software or hardware is required, making these services easy to implement and scale. The WebEx Collaboration Cloud offers better than 99.99% reliability, as well as robust security, to meet your strict requirements. Your session content is never stored on our servers and 128-bit SSL and 256-bit AES encryption ensures privacy during transmission. WebEx services are stringently audited against standards with compliance details provided in SAS 70 Type report and other third-party security reports.

Highlights:

- **Stay connected to your important meetings.** Tap into your next Cisco WebEx meeting simply by tapping your iPhone.
- **Expand the capabilities of a WebEx Meeting Center account.** Download a free WebEx for iPhone application from the Apple iTunes App Store.
- **Hold meetings in the palm of your hand.** View documents, presentations, and even presenters' desktops—from your iPhone.
- **Meet right from your iPhone—** whether participants are on a PC, Apple Mac®, Linux®, Unix®—or another Smartphone.
- **Free yourself from your desk.** Tap the meeting listed within the app or the invitation URL to connect immediately.
- **Collaborate on the go.** Choose the most convenient way to collaborate. Hand off your WebEx meeting from your iPhone straight to your desktop without any interruption.
